JAN 22 1959

General Services Administration
Federal Office Building
909 First Avenue
Seattle 4, Washington

Gentlemen:

This is in reply to your letter of January 9, 1959, in connection with the disposal of the U. S. Naval Industrial Reserve Shipyard, DOD #442 at Tacoma, Washington, GSA Control No. N-Wash-595, in which you requested several changes inthhe Report of Excess made by this Department.

In connection with paragraph 2 of the above letter you are advised that the amounts to be inserted on Standard Form 118, Item 11, Lines A and B are $10,596,229 and $1,938,064, respectively, making a total of $12,534,293. In connection with paragraph 3(1), it is recommended that Structure No. 52 be deleted from the Report of Excess.

Paragraph 3(2) and 3(3) advise of 2 structures that are not in the plant account. Inasmuch as these two structures are not in the plant account, this Department is unable to furnish any particulars. It is, therefore, requested that your administration dispose of these two structures in the manner most equitable to the Government.

Paragraph 3(5) advises of an easement that was granted to the Puget Sound Power and Light Company and recorded on December 5, 1928. Your attention is invited to page 7 of this Departments Attorney's Report which states that all lands taken by condemnation were made subject to existing public utility easements. Unless the records of Pierce County, Washington, show that this easement was limited in duration and has since expired, it must be assumed that it is an outstanding easement and should be treated accordingly.

Pursuant to the request contained in paragraph 5, there is enclosed a reproducible parcel map of this facility. The map does not include Parcel No. 5. It is advised that this Bureau is not in possession of the metes and bounds descriptions of these parcels with the exception of those furnished under letter of October 24, 1958.

By copy of this letter the District Public Works Officer is requested to correct the plant account records in connection with Building No. 52.

Sincerely yours,

G. J. LITTLETON
Manager, Disposal Branch
Real Property Management & Disposal Division
By Direction of Chief of Bureau

2 APR 1959

General Services Administration
Federal Office Building
909 First Avenue
Seattle, Washington

Gentlemen:

By this Department's letter of 29 September 1958, the U. S. Naval Industrial Reserve Shipyard, Tacoma, Washington, DOD No. 442, was reported as excess to the current, but not mobilization, requirement of this Department. It was requested that the Shipyard be sold as a unit, preferably to a purchaser engaged in shipbuilding or ship repair or related work, and that the sale should be made subject to a National Security Clause for twenty years on all items.

This Department has further reviewed the necessity for the imposition of the Clause on certain of the facilities at the subject Shipyard, and has determined that the items listed in the enclosed Standard Form 118a, in triplicate, need not be subject to the Clause.

The District Public Works Officer, Thirteenth Naval District, is being requested to forward to you, corrected Forms 118c, which will contain additional items of related personal property that will not be subject to the National Security Clause.

Sincerely yours,

M. E. SCANLAN
CDR, [illegible] USN
Director, Real Property Management and Disposal Division

APR 16 1959

General Services Administration
Federal Office Building
909 First Avenue
Seattle 4, Washington

Gentlemen:

On October 1, 1958, this office delivered to you the Standard Form No. 118c in triplicate, with attached inventory of equipment (Class III) and minor property; also, by letter dated October 10th, certain corrected pages to the inventory attached to the Standard Form 118c were forwarded to your office. This report of Related Personal Property concerns the Department of the Navy's Report of Excess for the Naval Industrial Reserve Shipyard, Tacoma, Washington.

By letter dated April 2, 1959, the Chief, Bureau of Yards and Docks, Department of the Navy, amended the Report of Excess by reporting to your Administration certain of the facilities as not being subject to the National Security Clause; and also advised that the District Public Works Officer would forward corrected Form 118c covering items of related personal property which will not be subject to the National Security Clause.

Enclosed is a corrected Form 118c, including two attached lists of Class III property and certain items of minor or unnumbered property at the Shipyard, which are being reported as not subject to the application of the National Security Clause.

Very truly yours,

HENRY G. MAIER
Manager, Naval Properties Branch
By direction of the
District Public Works Officer
Thirteenth Naval District

15 MAY 1959

General Services Administration
Federal Office Building
909 First Avenue
Seattle 4, Washington

Gentlemen:

A request has been received from the Department of the Air Force for the transfer of Building No. 319, a Chapel, for off-site use, located at the Naval Industrial Reserve Shipyard, Tacoma, Washington.

Forms 118 and 118c, in triplicate, are enclosed.

Since there is a defense need for this Building, it is requested that this property be withdrawn from the Report of Excess. It is further requested that this Bureau be advised that such withdrawal is effective in order that the Building may be transferred to the Department of the Air Force.

Sincerely yours,

M. E. SCANLAN
